SAUCE.---LEA AND PERRIN'S
Worcestershire Sauce.

PRONOUNCED BY CONNOISSEURS TO BE THE Only Good Sauce, and applicable to EVERY VARIETY OF DISH.

EXTRACT of a LETTER from a MEDICAL GENTLEMAN at Madras, To his Brother at WORCESTER, May, 1851. "Tell LEA & PERRINS that their Sauce is highly esteemed in India, and is, in my opinion, the most palatable, as well as the most wholesome Sauce that is made.

Caution.

Lea & Perrins

Beg to caution the public against spurious imitations of their celebrated
WORCESTERSHIRE SAUCE
L. & P. having discovered that several of the Foreign Markets have been supplied with SPURIOUS IMITATIONS, the labels closely resemble those of the genuine Sauce, and in one or more instances the names of L. & P. FORGED.
L. & P. will proceed against any one who may manufacture or vend such imitations and have instructed their correspondents in the various parts of the world to advise them of any infringement of their rights.

Chlorodyne.
CHOLERA, DYSENTERY, DIARRHŒA, CRAMP, AGUE, FEVER, RHEUMATISM, CONSUMPTION, ASTHMA, COUGH, &c.
ALL PAIN, VOMITING AND DISTRESS ceases in a few minutes after taking a dose of that wonderful SEDATIVE ANODYNE and ANTISPASMODIC remedy, CHLORODYNE, discovered by Dr J Collis Browne M.R.C.S.L., (ex-Army Medical Staff,) the recipe of which was confided solely to J. T. Davenport, 33 Great Russell street, Bloomsbury square, London (Pharmaceutical Chemist). The medical testimony of civil, hospital, military and naval practitioners pronounces it INVALUABLE. It relieves pain of any kind, soothes the restlessness of fever, and imparts the most refreshing sleep, without producing or leaving any of the unpleasant effects of opium.
Earl RUSSELL has graciously favored J. T. Davenport with the following extract of a despatch from Mr. Webb, H. B. M's Consul at Manilla, dated Sept. 17, 1864:—"The remedy most efficacious in its effects (in Epidemic Cholera) has been found to be CHLORODYNE, and with a small quantity given to me by Dr Burke I have saved several lives." Earl Russell communicated to the College of Physicians that he had received a despatch from Her Majesty's Consul at Manilla, to the effect that cholera had been raging fearfully, and that the ONLY remedy of any service was CHLORODYNE.—See "Lancet," December 31, 1864.
From W. Vesallius Pettigrew, M.D., Hon. F.R.C.S. England, formerly Lecturer upon Anatomy and Physiology at St. George's School of Medicine: "I have used it in Consumption, Asthma, Diarrhœa and other diseases, and am most perfectly satisfied with the results."
Dr. Gibbon, Army Medical Staff, Calcutta: "Two doses completely cured me of Diarrhœa."
Extract from the General Board of Health London, as to its efficacy in Cholera.
"So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of adopting it in all cases."
From A. Montgomery, Esq., late Inspector of Hospitals, Bombay: "Chlorodyne is a most valuable remedy in Neuralgia, Asthma and Dysentery." To it I fairly owe my restoration to health after eighteen months' severe suffering, and when all other medicines had failed."
CAUTION.—In consequence of the extraordinary efficacy of this remedy, several unprincipled parties have been induced to vend imitations. Never be tempted to buy Chlorodyne except in sealed bottles, having the words, "Dr. J. Collis Browne's Chlorodyne" engraved on the wrapper. A sheet full of medical testimonials accompanies each bottle. Sole manufacturer, J. T. DAVENPORT, 33 Great Russell street, Bloomsbury, London. Sold in bottles, 2s. 9d. and 4s. 6d. ju24 1yw

The Infallible Remedy.

Holloway's Ointment.

Contracted or Stiff Joints.
All the medicines in the London dispensaries would barely benefit, much less cure, any chronic cases of contracted or stiff joints; whereas if this invaluable ointment be effectually rubbed into such parts twice a day, the effects will be immense. Paralytic patients even can derive advantages from this fine remedy when other means fail.
Scorbutic Humours.—Scald Head and Skin Diseases.
Scorbutic humors arise from an impure state of the blood, and in most cases the liver and stomach are the organs at fault. The Pills will speedily restore these to a healthy action; while the Ointment if well rubbed in at least twice a day, will soon cure any case of skin disease. Soldiers, Sailors, and miners, use this famous Ointment in all parts of the world.
Disorders of the Kidneys, Stone and Gravel
In any of the above complaints more benefit may be derived in twenty-four hours by adopting the following simple means than is frequently brought about in six months by any other treatment. In bad cases if the Ointment be rubbed into the small of the back over the region of the kidneys, it will quickly penetrate, and, in most instances, give immediate relief. Six or eight of the Pills should be taken nightly according to circumstances.
Diptheria, Sore Throats, &c.
These maladies are of so serious and dangerous a nature that the Ointment would not be recommended unless the Proprietor was sure of its effect. It will cure when every other means have failed, if applied immediately, and not delayed until the patient is beyond recovery. It is a sovereign remedy for sore throat. Settled Coughs or wheezing will be promptly removed by rubbing it in this unguent. Mothers should rub it into the chest of their infants whenever there is any hoarseness, tightness, or other affection of breathing.
Bad Legs, Bad Breasts.—Old Wounds, Sores and Ulcers.
It is surprising how quickly a sore, ulcer, or wound, deprives the body of strength, and unfits it for the duties of life; but it is no less wonderful to watch the effect of Holloway's Healing Ointment, when it is used according to the printed directions, and assisted by appropriate doses of the Pills. The pain, inflammation, and other morbid manifestations, soon disappear from the affected part and health and strength return.—This treatment creates sound flesh, and therefore makes its cures complete.
Gout and Rheumatism.
Will be cured with the greatest certainty if large quantities of the Ointment be well worked into the complaining parts. This treatment must be perseveringly followed for some time and duly assisted by powerful doses of Holloway's Pills. The essence of these diseases lies in the blood, which has floating through each vessel the pain-giving poison which vitiates and inflames every tissue it comes in contact with, and produces the hot, swollen, elastic enlargement about the joints so characteristic of gouty and rheumatic maladies.
Both the Ointment and Pills should be used in the following cases:

Bad Legs	Chilblains	Glandular Swellings	Sore-throats
Bad Breasts	Chapped Hands	Lumbago	Skin-diseases
Burns	Corns (Soft)	Piles	Scurvy
Bunions	Cancers	Rheumatism	Sore-heads
Bite of Mosquitoes and Sand-Flies	Contracted and Stiff Joints	Scalds	Tumours
Coco-bay	Elephantiasis	Sore Nipples	Ulcers
Chiego-foot	Fistulas		Wounds
	Gout		Yaws

Sold at the establishment of PROFESSOR HOLLOWAY, 244 Strand (near Temple Bar) London; also by all respectable Druggists and Dealers in Medicines throughout the civilized world at the following prices:—1s. 1½d; 2s. 9d; 4s. 6d, 11s., 22s., and 33s. each Pot.
☞ There is a considerable saving by taking the larger sizes.

BIRTHS, DEATHS, AND MARRIAGES.

In future all notices of Births, Deaths, and Marriages intended for insertion in this paper must be pre-paid at the following rates: For births and marriages, $1 50; for deaths, $1, with funeral notice $1 50.

THE LONDON TIMES AND THE NORTH AMERICAN COLONIES.

The relations between the mother country and her colonies have been to some extent the counterpart of those between parent and children. In the early stage of colonial existence there was the patriarchal despotism, with the inclination to punish the offspring when they were presumed to be wicked or disobedient. As the colonial infant grew up a different and more liberal position was assumed by Great Britain, but the youth was still held in a kind of domestic bondage. Now it would appear the age of colonial manhood has been attained and England is obliged to deal with her offspring as if they were her equals. The London *Times*, in alluding to the recent negotiations between the Canadian delegates and the British Cabinet, acknowledges with a sigh of relief that the colonist is at last treated more as an ally than a dependent. "It has always been the complaint" says the *Times* "of colonial statesmen that while every other nation was received with distinction in London, the inhabitants of the foreign dominions of the Crown were passed over on their periodical visits to this country without any other recognition than a hurried interview with the Secretary of State for the Colonies, or perhaps a dinner at his residence. Canada, at any rate, has no such complaint to make. She sent envoys, solemnly appointed, and very faithfully representing the different phases of opinion in the colony, to England. They were received and recognized as her representatives, and a Committee of the Cabinet was appointed to confer with them. Not only so; they were received in London with unusual distinction; they were, in fact, feted in a most remarkable manner. And that is the more noteworthy as there was no question of conciliating a discontented community, but rather of granting a favor to a province believing itself to be in no little jeopardy. These things seem to announce a radical change in the relations between the mother country and the colonies—a change from subjection and dependency into something much more closely resembling alliance and equality. We think the change a salutary one."

With the *Times* we believe the change to be salutary; and we cannot help congratulating the Thunderer on the transformation on colonial matters of its own opinions. It was only on Tuesday last we published an extract from our London contemporary in which it was asserted that "if the people of England think they can do without Canada then and then only will they give Canada up." This, of course, was written some years ago, and was then the policy of British statesmanship as well as the opinion of the British press, but it shows how complete has been the change of sentiment when the same authorities now insist that Canada shall be left to her own predilections, no matter what views may be entertained by Great Britain. As we have said before, we do not believe altogether in this apparently passive indifference. England would, no doubt, to-morrow be willing to clothe the British North American colonies with all the powers of a nation and relinquish her sovereignty forever; but she would not willingly consent to the absorption of these countries, for which she has expended so much blood and treasure, by the United States. There is a national pride, a national *prestige*, and even a national profit to be maintained—a "balance of power" to be kept on the American continent—and it will only be when Great Britain is unable, by force of arms, to retain what her former prowess won, that she will consent to lose it through the aggrandizement of the American Republic. Of course to confer nationality is to give the colonies the power of choosing their own destiny—of becoming an integral part of the United States or remaining an independent nation; but England knows that there are charms about a new nationality which will make its possessors guard with jealousy any attempt at change; and even should the time arrive when British North America, as a free untrammelled power, should become a member of the American Republic, the *prestige* of Great Britain would not as now suffer irretrievably by the combination.

We have alluded to the change in the relations between the colonies and the mother country, and have instanced the remarkable metamorphosis of the London *Times*. That journal goes much further, however, than anything that has yet been written. It goes, in fact, so far as to suggest the idea that the money which the Canadians will have to to expend in defence will crush more than any invasion the material prosperity of the country. It blames the English Cabinet in the recent negotiations for promising to the Delegates the credit of England in borrowing almost unlimited means at a time when Canada is struggling hard with the debt already on her shoulders; and prognosticates irritations and embarrassments between the two countries even after "Canada has become an *independent state*." "No paper," it says besides, "has yet been produced to the people of this country which offers any satisfactory answer to the grave objections urged against the possibility of defending Canada against an invasion from America." It will be recollected that this is very nearly the position assumed by Mr. Lowe (one of the editors of the *Times*) in the House of Commons. Canada in his eyes could not be defended, and it was therefore useless to expend money on her fortifications. This is a remarkable phase in the character of the leading journal of England. To tell the British public that it is much better to leave the North American colonies to gravitate towards the United States than to take steps for their protection is an advance in the progress of materialism which we were unprepared to witness. "If Canada must contract a loan" says the *Times* "it would be far better to make it for the purpose of facilitating a reform of her tariff than for defensive works." Why Bright and Cobden never, in their most non-belligerent vein, went so far as this; but probably neither Bright nor Cobden had so much at stake in Canada as the gentlemen connected with the London *Times*. Many thousand pounds of the Thunderer's money are sunk in the Grand Trunk and many thousands in other Canadian investments. All have proved unfortunate, and if there is any subject in the world upon which the leading journal of England is more sensitive than another it is Canadian finance. It dreads any increase to the present large debt, because it fears colonial bankruptcy. It dreads a war with the United States, because the Grand Trunk dividends would be rather problematical after the railway had been destroyed. Keep debt away, says the *Times*, in substance, encourage population, and if there is any danger of war with the neighboring Republic submit quietly to annexation, and thus save your homesteads and English investments.

THEATRE.—The performance last night was for the benefit of the Treasurer, Mr. Ralph Phelps. The first piece presented was Tom Taylor's fine drama of "Court and Stage," in which Fanny Morgan Phelps enacted the spirited actress, Nell Gwynne, a character in which she won many admirers on her previous visit to this city. Her acting on this occasion was most animated and truthful and elicited rounds of applause.—Frances Stewart, the interesting *fiancee* of the Duke of Richmond, was faithfully and ably represented by Mrs Estelle Potter Macdonald, her first appearance this season. The noble Duke (Mr. A. R. Phelps) was a genuine type of the old age of chivalry. Major Wildman was personated by Mr. Reeves, who in the raving scene where he reveals the plot against the life of King Charles. II (Mr. Tiernay) displayed a dramatic power that quite took us by surprise. Mr. Reeves two years ago was an unpretending amateur and has made great progress in the Thespian art. The rest of the characters were well represented with the exception of the King who was not up in his part. The audience however received his shortcomings very good naturedly and called him before the curtain at the end of the piece when Mr. Tiernay turned his imperfections off with a joke, and Mr. Phelps apoligised on his behalf stating that the part was a long one for a novice to learn and had been given him at the last moment. In the amusing farce of "Nature and Philosophy or the Youth who never saw a Woman" Mrs. Phelps was irresistably droll and with the aid of Messrs. Marsh, Shelby, Mrs. Wood and Jenny Arnot occasioned infinite amusement. To-night will be presented the beautiful drama of All that glitters is not Gold, with Mrs. Phelps as Martha Gibbs, followed by Somebody Else and Raising the Wind.

FROM BURRARD INLET AND NANAIMO—The steamer Diana, Capt. T. Wright, arrived last night with Capt. Stamp from Burrard Inlet *via* Nanaimo, having left the Inlet in the morning. From the Nanaimo *Gazette* we cull the following: The ship Riviere took 1250 tons of coal to San Francisco. Two men named Raybould and Bradley had their hands severely lacerated on Wednesday last while adjusting some derangements in the machinery in Douglas Pit. The former lost one of his fingers. The Meg Merrilies has gone on the ways at Bolton & Cook's yard for repairs. The sum of $400 has been promised by the inhabitants towards erecting the new school house, but time is required by the committee for its collection. A monster turnip weighing twenty-one and a half pounds and 37 inches in circumference, has been grown on the farm of Mr. Peter Sabiston.

NEW DIGGINGS STRUCK—The party engaged in the construction of the telegraph line, while setting posts, a few days ago, three miles up a creek which empties into the Fraser 15 miles above Quesnelmouth, struck dirt prospecting from 75 cents to $1 to the pan. As soon as the news reached the Mouth a number of persons went out to the new diggings.—*Columbian.*

THE LARGE OIL PAINTING representing a Nun receiving the Sacrament, lately the property of Mr. C. Hounslow, was sold yesterday at Scott's sale of the Queen's Saloon to Mr. P. McTiernan for the sum of $175. A large number of persons were present, and the bidding was spirited. The picture is worth much more money.

MINSTREL ENTERTAINMENT.—The capacious cellar under Pattrick's spirit store has been engaged by a full company of minstrels for the winter season. A stage is now being erected, and private boxes and comfortable seats for their patrons are being constructed. The entertainment will probably open on Saturday.

THE FALL ASSIZE—According to a notice in Saturday's *Gazette*, a Court of General Assize and Gaol Delivery will be held at Lytton on Monday the 6th instant; at Yale on Saturday the 11th instant, and at New Westminster on Wednesday the 22d instant.—*Col.*

FOR CORK—The ship Aquilla, Capt. Sayward, was taking in her last spar when the Diana left Burrard Inlet yesterday morning. She has a very large cargo on board, and will sail for Cork harbor for orders at the end of the week.

DEBATING CLASS—The adjourned debate from Thursday last will be resumed this evening. The nomination of officers for the ensuing term will also take place.

TRADES LICENSES—Several tradesmen were summoned in the Police Court yesterday for trading without a license. The cases were disposed of in the ordinary way.

FOR PUGET SOUND—The steamer Eliza Anderson will leave for ports on Puget Sound this morning, at five o'clock.

GUN PRACTICE—The boats from the ships of war in Esquimalt harbor were out yesterday practising gunnery.

TREASURE SHIPMENT—The Bank of British North America shipped yesterday $54,880 per steamer Active for San Francisco.

ARRIVED—The schooner Thorndyke arrived yesterday from San Juan Island, with two tons of potatoes for R. Brodrick.

DANCING CLASSES—Mrs. Digby Palmer will resume her winter evening Dancing Classes for Ladies and Gentlemen, on Wednesday and Saturday evenings, at 8 o'clock. The class for children will be held on Wednesday and Saturday afternoons, at half-past three o'clock. The school will meet at Mrs. Digby Palmer's residence, on Douglas street, corner of Fort street. Mr. Palmer presides at the piano-forte for both classes. Terms per month—Adults, $5; Juveniles, $3; Private Lessons, $8. *

THE OFFENSE IS RANK—We hold it inexcusable in any person, male or female, when they subject us to an annoyance, which a very little trouble on their part would obviate. Especially is this the case where the unfortunate possessor of a bad breath will persist in button-holing and intruding his views upon us, to our manifest mental and physical discomfort. If these good people would use the SOZODONT, it would not only render them acceptable acquaintances, but would at once greatly improve their teeth and breath.

Sold by all Druggists.

DISTURBANCES AT COMOX—The gunboat Forward, with the magistrate Mr. Franklin on board, left Nanaimo for Comox on Tuesday morning. The *Gazette*, in commenting on the rumor of Indian disturbances in that settlement published in the COLONIST of the 26th ulto, says:—We believe the rumor had for its origin a paragraph in our Comox correspondence, relating to the irruption of a number of Eucaltaus on the potato patches some two miles up the Comox River, and their hostile attitude to the settlers. Since then we have received the following additional particulars: The Indians alluded to above are of the same tribe as those removed by the Forward to Cape Mudge some time back; but now, feeling secure in their increase of strength, they despise the power of the *tenass* gunboat, as they style the Forward, which they allege possesses only twenty muskets to 150 that they can produce, and as the big guns cannot easily be brought up the river, an attack by boats they consider will not be attempted, as the success would be very problematical. They express their determination of remaining where they are, and say that any attempt to dislodge them will be met by the full force of the tribe. The Comox Indians are disposed to be loyal, and the Chief, Walkus, has promised the aid of 50 muskets in case an attack was made.

OLD DOMINION.—Notwithstanding the assertion made by a correspondent of the COLONIST that this creek had proved a "hoax" the greatest confidence is felt in it. There is said to be extensive shallow diggings on this and neighboring creeks which will pay good wages. Several parties are wintering there, and it is asserted by Mr. Jennings and other miners, who came down on Monday, that they would not be surprised if these new diggings would give remunerative employment to as large a population as William Creek next season, and this entirely irrespective of what may be found upon the bed-rock, which has not yet been reached. Of one thing there can be no question—the confidence in the extent and richness of our gold fields, expressed by those who are coming down, far exceeds that of any previous year.—*Columbian.*

GOLD DUST—During Monday and Tuesday about 2,000 ounces of gold dust, in private hands, found its way into the Government office in this city, for assay. It belongs chiefly to successful Canadians, some of whom are about to pay a visit to their native land.—*Columbian.*

A SURGICAL OPERATION—On Saturday Dr. Black, assisted by Dr. Jones, amputated the injured foot of John Barber, the young man who received the injury at Chilliwhack, on Friday. It was found that the foot was hopelessly crushed. The patient is doing well.—*Col.*

THE MAIL STEAMER ACTIVE, Capt. Thorne, left yesterday morning at 10 o'clock for the Columbia River. She took 60 or 70 passengers, the majority of whom were miners visiting the Bay City.

SHARES SOLD.—Messrs. Daniel Scott & Co. yesterday disposed of 50 shares in the Queen Charlotte Coal Company for $3 per share, and 100 shares for $2 75 per share. The stock was owned by Mr. C. Hounslow.

SHERIFF'S LAND SALE.—Mr. D. Scott will sell at the Sheriff's Office to-day at one o'clock land in arrear of city taxes for the years 1863 and 1864.

H.M.S. DEVASTATION will leave to-day for the coast of Mexico.

CARIBOO CORRESPONDENCE.

[From our Regular Correspondent.]

BARKERVILLE, Oct. 23.

GENERAL MINING REVIEW AND PROSPECTS.

Though mining operations are yet going on most spiritedly, we may still consider the present mining season virtually at an end. Upon the whole, it has been a good one, and we have no cause for complaint. A few claims have paid largely, some others have yielded good dividends, and many more good wages. Fewer men, compared with former seasons, have been idle; mining operations, momentarily impeded by a tremendous freshet, have been resumed with a fresh impulse, and are still carried on with the utmost vigor. Fewer claims, it is true, have given large dividends during this than previous seasons, but many more have paid good wages. Fewer men have made a "big fortune," but many have gone home with a respectable balance in their pockets, the gold having been more equitably distributed. Three quartz ledges have been tested with most encouraging prospects.

Several parties have gone prospecting during the season; and have returned back, I regret to state, without making any new discoveries; but if we take a thorough, calm and dispassionate view of matters, the conclusion is forced upon us that there is no cause for despondency. Indeed, if we take into consideration the deep nature of the ground, the want of machinery and other difficulties the explorers had to cope with, we are forced to confess that the country has been overrun, but not practically prospected, and I challenge any one to say it is otherwise. As facts speak louder than words, I may mention that on Old Dominion Creek the prospectors stopped short before reaching the bed rock, nor has any one reached it thus far. On North Star Creek the same has been the case; indeed, it is so in nineteen instances out of twenty.

A party, two winters ago, sunk a shaft at Mohawk Gulch to the depth of 134 feet, the deepest in British Columbia, and were unable to reach the bed rock. They found gold on the top gravel and at 96 feet from the surface. This was considered a most hopeful prospect at the time, though it proved fruitless. Who would venture to say, however, that good diggings do not exist where all indications seem to prove the contrary? Let it be remembered that in Australia it was at a depth of over 300 feet that the best pay was found out, and that in some parts of California it is only after three years of hard toil and patience that the prospector is rewarded for his labor. Let it be further remembered that Williams Creek, which has yielded already tons of gold, was christened by the first explorers "humbug creek," and that it was the almost fortuitous finding of gold in the cañon that led to its discovery. Three full seasons elapsed before some of the now richest claims yielded one single dollar for thousands expended. With such facts before us, and facts are stubborn things, can it be said that there is no gold in a country because it has been overrun by half a dozen miners for a few weeks without any good results? Goodness knows how many more creeks that have been pronounced failures on such slight foundation will turn out to be equal to Williams Creek when thoroughly tested. Let us cease to exclaim that the country has "caved in," as it only begets a despondency for which there is not the least foundation.

A great problem has been solved during the present year: the finding of gold in paying quantities in the hills. This single fact alone is sufficient to lead us to believe that the country is not "going in" yet, and that a turn of "good luck" is still in store for us, sufficient to make us cheer up and look forward with golden hopes to the future!

MINING INTELLIGENCE.

The day before yesterday I took a walk up and down the creek visiting almost every claim. I found the miners as a general thing buoyant with hope and in most cheerful spirits, a great change having taken place since the freshet, with a return of good luck.

The following companies are at work:

Some ten or twelve companies are working above Richfield, some taking out wages but the majority prospecting.

Below Richfield to the cañon, on the side hill the Tontine Company have just wound up for the season. This claim yielded good dividends during the summer.

The Forest Hill claim seems to rank foremost. I was shown several big nuggets, weighing from one to four ounces apiece. They are now cleaning up for the season and will get through by the end of the week. They intend next spring to have the best kind of hydraulic apparatus. That's the way to work it.

The San Francisco and St. Patrick companies have stopped work for want of water. They did not do as well as they expected, having been short of water the most part of the season. But I see no reason why these two claims should not pay as well as the Tontine when they are worked to better advantage.

The Ross claim, below the Forest Hill, is yielding well. They are still at work and will continue so as long as they can.

The Tom King, Tom Brown, and Hyack companies are still at work doing well.

BELOW THE CANON.

The Chipp's, Foster-Campbell, and Baldhead companies are at work, the Chipp's doing well, the Baldhead not much, and the Foster-Campbell sinking a shaft.

The Sheepskin Company are doing as well as formerly.

The Hibernia Company are working, but not taking out gold.

The Welch Company are doing something above expenses.

The Australian Company have taken to washing a surface stratum, and are doing remarkably well.

The Hit or Miss Co. are sinking a new shaft.

The Aurora Co. have stopped taking out dirt owing to the great danger incurred by the bad condition of their claim, the whole hill sliding away. They are to let the ground rest and settle down for a few days and afterwards try to work again. But it is very doubtful whether they will be able to do so or not.

The Ryan Co. are still prospecting but with no success.

The Wake-up-Jake Co. are still washing gold, but not so much as formerly.

The Cariboo Co. are still trying to bail out the water from their drift, but seem rather dispirited at their bad luck.

The What Cheer Co. (called now the Camp Co.) are driving ahead prospecting and hope ere long to strike good pay.

The Watson Co. are getting along finely with their new shaft.

The Yellow Virgin Co. are doing as well as formerly reported. On Saturday last they won a law suit with the Aurora Co. and recovered four hundred feet of ground from which they take very big pay, say from 50 to 100 ounces a day.

The Morning Star Co. are working ahead with the utmost energy and intend to do so as long as the weather permits. This claim pays one ounce a day to the hand on an average. On Saturday last they took out four ounces and $3 out of five pans of dirt. Since the freshet occurred they have been greatly troubled with a leak from the surface water. 700 gallons an hour is the average of the water they bail out. To remedy this inconvenience they intend running a tunnel next spring from the creek. The energetic, enterprising foreman, Captain Terry, is the very man to put it through.

The Never Sweat Co. are hard at it, making $9 a day to the hand.

The Caledonia Co. are averaging from 1½ to 2 ounces washing tailings.

The Moffat Co. have stopped washing tailings, but intend sinking two new shafts, one on each side of the creek, in a month's time.

The Nevada Co. who intend working throughout the winter, are running a new tunnel.

The Beauregard and Confederate Cos. have just commenced sinking a new shaft.

The St. Andrews Co. are driving ahead their tunnel behind the Bank of British Columbia.

The Tinker Co. struck a good prospect on an upper stratum two or three days ago, it is supposed to be the same lead as the Beauregard and Confederate.

A company have laid 120 feet of flume in the bed of the creek to wash tailings, near the Bank of British Columbia. The total length of the flume is to be 400 feet. This new Company is called the Guerilla Flume Company.

The Cameron Company are working in one shaft, taking out from 30 to 40 ounces daily. I was informed by James Cummings, its able foreman, who is a gentleman in every sense of the word, that they have a streak of paying dirt from 10 to 12 feet thick. They intend working the whole winter.

The Last Chance Company are making over expenses. Mr. Davis sold out a few weeks ago one-half interest for $1100 to Mr. F. P. Fredden, who received for one single week's dividend $294. They are reported to have 300 feet left of solid ground, and intend to start an incline very soon to get at it.

The California Company's incline has entirely "caved in," owing to the pressure from the upper ground.

The Dead Broke Company.—I saw their washing the day before yesterday and, at a rough guess, should say that they had from 30 to 40 ounces of fine gold.

The Raby claim continues to yield from $150 to $200 dividend a week to the interest. They take dirt only from one shaft, and are working a stratum of paying dirt, 12 feet deep, 14 feet from the surface, and 16 feet from the bed-rock. Mr. Mallory, an old experienced, practical miner, has charge of the working department, and is well qualified in every way to push things through.

The Prince of Wales Company make over expenses, and get into better pay every day. They calculate to work during the whole winter.

The Black Douglas Company are over 100 feet into the hill, and are driving their tunnel rapidly ahead. They are to work during the winter.

The Rankin Company are fitting up matters to commence working early next spring.

The Adams Company have all the machinery completed to work during the winter season. The old company have entirely disappeared, having disposed of their interests to Dr. Siddall and his worthy partner, Mr. Mattice. When they sold out, they were $2300 behind hand. For the last three successive seasons they kept working within 100 feet of the pay dirt; the claim is now considered one of the very best on the creek, and under the impulse given to the work, by the new owners, it is expected to yield largely.

The Oram claim yielded during the whole season from $25 to $50 daily dividend to the interest. They are making preparations to work during the winter.

The Hart Company are doing very well.

The Marysville Company have just got the water out of their drift,

The Union Company are washing some gold, but I do not know in what quantities.

The Forest Rose Company do not seem, unfortunately, to succeed in accordance with previous prospects obtained, though I am still inclined to think that they will ultimately meet with success.

The Prairie Flower Company are reported to have struck some good prospects.

The Lily of the Valley Co., I am told, are getting one ounce a day to the hand from an upper streak of dirt, which seems to run in an oblique direction to the bed rock. They are determined to follow it all through.

All that I saw in my ramblings through the creek satisfies me to a certainty that the next mining campaign will be as fruitful as the present one, if not more so.

Some companies complain loudly against the Bed Rock Company for not removing all obstructions at once, whilst the latter are no less bitter in denouncing the former as being unwilling to pay drainage. Judge Cox, to whom both parties have applied for assistance, says he has no right to interfere in this matter. Who, then, is the Alexander to untie this Gordian knot? Such disputes should be set at rest at once, as they are most injurious to the best interests of the country.

CONKLIN GULCH.

The Saw Mill Company washed up 126 ounces two days ago.

The Reid Company does not pay expenses now. It still prospects well, and will pay well next season when worked to better advantage.

The Ericsson claim is averaging 20 ounces a day.

The United Company, of which I spoke in a former communication, are taking out above expenses.

GROUSE CREEK.

I condense the following intelligence, from a friend of mine, who has just returned from a trip on this creek. Upon the whole things look brighter there than on Williams Creek. About eighty men are at work, all making wages.

The Bank Discovery Company, who lately staked off their ground, are reported to be making $50 a day to the hand. They are supposed to be on the old channel of the creek. Mr. Cameron, one of the shareholders, disposed of his interest a few days ago for the sum of $1000. This is said to be a cheap bargain.

Several other companies who work above the Discovery claim, anticipate striking the lead every day.

A Frenchman sold out lately his interest in one of the bank claims for the sum of $1000, and is reported to have made $5000 or $6000 during the season. My informant, however, cannot vouch for the truthfulness of this report.

The Bed Rock Flume Company are still at work, with what results I am unable to state.

Business seems to be as brisk as mining operations on this creek, if we may judge from the fact that a storekeeper sold out a cask of liquor in two or three days; otherwise the miners must be hard drinkers.

LOWHEE, BURNES' AND ANTLER CREEKS.

Matters on these creeks remain unchanged since my previous reports.

QUARTZ LEDGES.

Three different parties have been prospecting for quartz, viz.: the Snowshoe Company, the Williams Creek Gold and Silver Mining Company, who have been sinking during the whole season (it is this company and not the Great Ophir Company as I erroneously stated in a former correspondence, who sent 2200 pounds of quartz to be assayed at San Francisco two weeks ago), and the Great Ophir Company, whose lead is located immediately above the latter one. Some experienced Washoe miners are much needed here at this juncture.

MISCELLANEOUS.

Mr. Thompson well known here as an old Fraser river pioneer, was appointed last week by Judge Cox to serve as Sheriff in a particular case. Let the appointment be a permanent one, for a good one it is. Mr. Thompson is well qualified in every respect to fulfil truly, honestly and faithfully the duties of the office.

On my way down I called at Mr. Brigg's store and was most agreeably surprised to see what great changes have taken place for the better in the premises now occupied by the new owner. A large cellar is added to the store stocked to repletion with goods of every description.

THE LARGEST YIELD OF THE SEASON—The Ericsson claim ranks foremost as having yielded the most gold during the season. This claim produced from the 29th of May last to the 8th of October inclusive $189,102. The expenses have been for the same period, $33 040. Total dividend, $156,062. Dividend to each interest, $14,187 45.

The Aurora claim comes next. It gave $55,000 clear of expenses.

The Saw Mill has yielded so far $45,000.

Next come the Morning Star, Cameron, Raby, Forest Hill, Tontine and several other claims which yielded good dividends.

ADIEU!—This is the last letter I shall date from Williams Creek this season, as I am going down. Before leaving, I feel it my duty to state here that I am greatly indebted for the information I have laid before your readers, for the last seven weeks, to a few particular friends and the foremen of the several companies who have vied with each other in the most obliging manner to supply me with it. I feel most happy to seize this opportunity of tendering them my heartfelt and most sincere thanks. Wishing them success and prosperity in their undertakings through life, I bid them all a friendly good bye!

Present Current Prices.

I am indebted for the following table of prices current to Mr. C. Strouss, of Barkerville, one of the largest commercial firms on the creek:

RETAIL.—Flour 30c, bacon 60c, beans 35c, sugar 50c, coffee 65c, tea $1 25, candles 65c, apples 50c, peaches 65c, nails 50c, axes and shovels $5, gum boots $16@$18.

WHOLESALE—Flour 28c, bacon 50c, beans 27c, sugar 36c, coffee 55c, tea 95c, candles 55c, apples 38c, peaches 50c, nails 32c, gum boots $175 per case.

HOLLOWAY'S PILLS are undeniably the finest medicine in the world for biliousness and indigestion. In all cases of deranged stomach, determination of blood to the head, bile, sick headache, liver, and stomach complaints, there is no medicine known that will give immediate relief as these renowned Pills; young and old, rich and poor, patronize them, and so many cures are effected by their use, that their praise is sounded from the torrid to the frigid zone; in truth, persons who travel consider them a necessary requisite. In sultry weather or warm climates, or in India, the blood becomes overheated, the liver torpid, the skin covered with prickly heat, and the whole system languid and exhausted. Nothing so soon gives relief as Holloway's Pills.

HOLLOWAY'S OINTMENT AND PILLS are an infallable remedy for bad legs, and all kinds of wounds. The surprising sale of these invaluable medicines, in every part of the civilized world, is the most convincing proof of their efficacy. They speedily cure bad legs, old wounds, scrofula, and diseases of the skin. Thousands of persons suffering from these dreadful maladies have been cured by these medicaments, after every other means had failed; and it is a fact, beyond all doubt, that here is no case, however obstinate, or however long standing, but may be quickly relieved, and ultimately cured, by these wonderful medicines. Their united action is irresistible, More need not be said in their praise. Let these who doubt their excellence give them a call.

HOLLOWAY'S OINTMENT AND PILLS—These potent remedies constitute a *materia medica* in themselves, for there is no internal or external disorder controllable by medicine for which the one or the other of them is not a positive remedy—eruptions, tumors, scrofula, scurvy, cancer, asthma, rheumatism, gout, and dropsy entirely subside and disappear under the action of these joint medicines; and in cases of indigestion, sick headache, bile, liver complaints, debility, and other disorders originating in the internal organs, the Pills produce the most astouishing results imaginable. The student of Nature knows how simple are her ways; if one preparation can throw out all the impurities of the blood, disease is conquered and art is triumphant, because it adopted the simplicity of Nature.

HOLLOWAY'S PILLS—Liver Complaints.—The virtue of these incomparable Pills are fully appreciated in every part of the civilized world. As they act on the general system through the circulation, there are few diseases which they cannot cure; but they are especially efficacious in all the disorders of the liver. For those they are an indubitable specific. They possess unrivalled potency for good, while they cannot do harm. A child might physic itself with these Pills, and without the slightest danger, except from such excess as would make the most wholesome aliment in the world an evil. By reducing the superfluous bile, regulating its due secretion, and giving tone to the stomach, they effect a permanent and perfect cure.

MINING SUPERINTENDENT—GEO. ROBINSON, Esq.

This Company has been formed for the purpose of developing and working several extensive and valuable seams of Anthracite Coal lately discovered in Queen Charlotte Island.

At present this is the only mine of pure Anthracite Coal known to exist on the Pacific Coast, and from the large and increasing quantity required and shipped to San Francisco and other ports the discovery is one of great importance and value.

The Company have had reserved to them by the Government Twenty Thousand Acres for mining purposes, five thousand of which is secured (at present) by lease at the nominal rent of $100 per annum, with the additional privilege of purchasing 1000 acres at $1 per acre for a town site.

The coal seams, from three to seven feet in thickness, are situated on the South of Graham Island, Queen Charlotte group, about 2000 yards from the shores of a fine Bay and about 400 feet above the level of the sea, the construction of an easy and inexpensive tramway about one mile in length, together with a wharf of about 150 feet projection are all the works the Company will require to enable them to offer coal in the markets

The quality of the coal has been fairly tested. The engineers of several of the steamers have pronounced it to be of the very best quality; it has also been used by the proprietors of the foundries in the city of Victoria whose reports are annexed, and declared by them to be equal if not superior to the best Pennsylvania Anthracite Coal.

The great advantage of the position of the mine cannot be brought too prominently to the notice of intending Shareholders, its close proximity to the coast, together with its superior quality renders it of great value; also an easy access for vessels of any tonnage, a safe and commodious harbor perfectly sheltered and land locked with secure and good anchorage, will enable vessels at all seasons and weather to load at the Company's wharf.

There is a large demand for anthracite coal to supply foundries, steamers, &c., &c., in San Francisco, Portland, Victoria and other ports, all of which has to be shipped from the Eastern States or from Europe at a great expense, the selling price ranging according to quality from $16 to $25 in some markets in others higher; the trade to Panama and along the Pacific coast will be considerable. An extensive trade will also be open with China and Japan. The naval stations of England, United States of America, France and Russia, must necessarily consume a large quantity.

Of the 15,000 shares forming the Capital Stock of the Company 7,500 are classed A (original shares) paid up to £1, and liable to addditional call of £1	£7,500 0 0

The Works, of which the above are an estimate, are in active operation, the Company having engaged and sent forward to the mine a number of skilled workmen who are under the direction of George Robinson, Esq., for many years Superintendent of the Nanaimo Coal Mines, and it is confidently hoped that by the month of April, 1866, the mine will be fully opened, and the Company prepared to supply Coal at their wharf.

HOLLOWAY'S PILLS

Nervous Disorders.

What is more fearful than a breaking down of the nervous system? To be excitable or nervous in a small degree is most distressing, for where can a remedy be found? Here is one:—Drink but little wine, beer, or spirits, or far better, abstain from them altogether; do not take coffee—weak tea is preferable; get all the fresh air you can; take three or four of the Pills every night; eat plenty of solids, and avoid the use of slops. If these golden rules are followed, you will be happy in mind, strong in body, and forget you have any nerves.

Mothers and Daughters

If there is one thing more than another for which these Pills are so famous, it is their purifying properties, especially their power of cleansing the blood from all impurities, and removing dangerous, and renewing suspended secretions. Universally adopted as the one grand remedy for female complaints these Pills never fail, never weaken the system, and always bring about what is required.

Disorders of the Kidneys.

In all diseases affecting these organs, whether they secrete too much or too little water; or whether they be afflicted with stone or gravel, or with aches and pains settled in the loins over the region of the kidneys, these Pills should be taken according to the printed directions, and the Ointment should be well rubbed into the small of the back at bed time. This treatment will give almost immediate relief after all other means have failed.

Stomach out of Order.

No medicine will so effectually improve the tone of the stomach as these Pills; they remove all acidity, occasioned either by intemperance or improper diet. They reach the liver, and reduce it to a healthy action; they are wonderfully efficacious in cases of spasm—in fact they never fail in curing all disorders of the liver and stomach.

Bronchitis, Diptheria, Coughs and Colds

No diseases are more frequent, few more dangerous, than affections of the respiratory organs. The first symptoms of disordered action may always be removed by Holloway's renowned Pills. They quickly remedy any temporary stagnation of the blood, relieve the overgorged veins, moderate the hurried breathing, and enable the windpipe and lungs to perform their functions with ease and regularity. These Pills, by their purifying powers cleanse the blood from all impurities and thus fortify the system against consumption, asthma, and other pulmonary complaints.

Debilitated Constitutions

In cases of debility, languor, and nervousness generated by excess of any kind, whether mental or physical, the effect of these Pills is in the highest degree bracing, renovating and restorative. They drive from the system the morbid cause of disease re-establish the digestion, regulate all the secretions, grace the nervous system, raise the patient's spirits, and bring back the frame to its pristine health and vigor.

Biliousness, Loss of Appetite, Headache, and Lowness of Spirits.

These Pills effect a truly wonderful change in debilitated constitutions, as they create a healthy appetite, correct indigestion, remove excess of bile and overcome giddiness, headache and palpitation of the heart.

Holloway's Pills are the best remedy known in the world for the following diseases:

Ague	Dropsy	Jaundice	Secondary Symptoms
Asthma	Dysentery	Liver Complaints	Tic-Douloureux
Bilious Complaints	Erysipelas	Lumbago	Tumours
Blotches on the Skin	Female Irregularities	Piles	Ulcers
Bowel Complaints	Fevers of all kinds	Rheumatism	Venereal Affections
Colics	Fits	Retention of Urine	Worms of all kinds
Constipation of Bowels	Gout	Scrofula, or King's Evil	Weakness, from what ever cause &c., &c.
Consumption	Head-ache	Sore Throat	
Debility	Indigestion	Stone and Gravel

" " —Langley street, Victoria;

MINING SUPERINTENDENT—GEO. ROBINSON, Esq.

This Company has been formed for the purpose of developing and working several extensive and valuable seams of Anthracite Coal lately discovered in Queen Charlotte Island.

At present this is the only mine of pure Anthracite Coal known to exist on the Pacific Coast, and from the large and increasing quantity required and shipped to San Francisco and other ports the discovery is one of great importance and value.

The Company have had reserved to them by the Government Twenty Thousand Acres for mining purposes, five thousand of which is secured (at present) by lease at the nominal rent of $100 per annum, with the additional privilege of purchasing 1000 acres at $1 per acre for a town site.

The coal seams, from three to seven feet in thickness, are situated on the South of Graham Island, Queen Charlotte group, about 2000 yards from the shores of a fine Bay and about 400 feet above the level of the sea. the construction of an easy and inexpensive tramway about one mile in length, together with a wharf of about 150 feet projection are all the works the Company will require to enable them to offer coal in the markets.

The quality of the coal has been fairly tested. The engineers of several of the steamers have pronounced it to be of the very best quality; it has also been used by the proprietors of the foundries in the city of Victoria whose reports are annexed, and declared by them to be equal if not superior to the best Pennsylvania Anthracite Coal.

The great advantage of the position of the mine cannot be brought too prominently to the notice of intending Shareholders, its close proximity to the coast, together with its superior quality renders it of great value; also an easy access for vessels of any tonnage, a safe and commodious harbor perfectly sheltered and land locked with secure and good anchorage, will enable vessels at all seasons and weather to load at the Company's wharf.

There is a large demand for anthracite coal to supply foundries, steamers, &c., &c., in San Francisco, Portland, Victoria and other ports, all of which has to be shipped from the Eastern States or from Europe at a great expense, the selling price ranging according to quality from $16 to $25 in some markets in others higher; the trade to Panama and along the Pacific coast will be considerable. An extensive trade will also be open with China and Japan. The naval stations of England, United States of America, France and Russia, must necessarily consume a large quantity.

Of the 15,000 shares forming the Capital Stock of the Company 7,500 are classed A (original shares) paid up to £1, and liable to addditional call of £1	£7,500 0 0

The Works, of which the above are an estimate, are in active operation, the Company having engaged and sent forward to the mine a number of skilled workmen who are under the direction of George Robinson, Esq., for many years Superintendent of the Nanaimo Coal Mines, and it is confidently hoped that by the month of April, 1866, the mine will be fully opened, and the Company prepared to supply Coal at their wharf.

BENSON'S WATCHES & CLOCKS

WATCH AND CLOCK MAKER, BY SPECIAL APPOINTMENT, TO HIS ROYAL HIGHNESS THE PRINCE OF WALES.

Opinions of the London Press upon Benson's Great Clock and Watches in the Exhibition, 1862

"As a sample of English clock-work on a large scale, the works of this are probably the finest finished that have ever been seen in this country. No Chronometer could be fitted with more perfect or carefully adjusted mechanism.—*Times*, June 11, 1862.

"A triumph of ingenuity.—*Telegraph*, March 31, 1862.

"A more splendid and exquisitely finished piece of mechanism we have never seen."—*Standard*, June 7, 1862.

"Some of them are of great beauty, and if the English watch trade only follow up with the same spirit and success this first attempt to compete with foreigners in decorative watches, there seems to be no reason why we should not get the trade entirely into our own hands."—*Times*, June 23, 1862.

"Ranged around the base of the clock were the Watches which Mr. Benson exhibited, and which have been universally admired for the beauty and elegance of the designs engraved upon them. The movements are of the finest quality which the art of horology is at present capable of producing. The clock and watches were objects of great attraction, and well repaid the trouble of an inspection."—*Illustrated London News* November 8th, 1862

Or in any other part of the body, its application to the part or parts where the pain exists will afford immediate relief.

IF SEIZED WITH PAIN

In the Stomach, Bowels, or Kidneys;
In the Bladder, Spleen, or Liver;
In the Teeth, Ears, or Throat;
In the Brain or Nervous System;

One teaspoonful of RADWAY'S READY RELIEF to a wineglass of water will, in a few minutes, restore the patient to ease and comfort.

If Lame, Crippled, or Bed-ridden;
If Palsied, Scalded, or Burned;
If Bruised, Wounded, or Cut;
If Strained, Injured, or Disabled;
If Sun Stroke, or seized with Fits;
If Weak in the Spine or Back;

RADWAY'S READY RELIEF

should be applied to the part or parts afflicted. It instantly relieves the patient from pain, and quickly heals, soothes, and strengthens the disabled parts. In all cases of Bites of Rabid Dogs, Reptiles, Stings of Poisonous Insects, the application of RADWAY'S READY RELIEF to the wound will prevent inflammation and mortification.

FEVER AND AGUE.

Persons exposed to the Malaria of Ague, or if seized with Chills and Fever, will find a positive Antidote and Cure in Radway's Ready Relief. Let two teaspoonsful of the Ready Relief, in a wineglass of water, be taken on getting out of bed in the morning, and however exposed to malaria you will escape.

WHEN SEIZED WITH

CHOLERA, or Diarrhœa, or Flux,
Dysentery, Cramps, and Spasms;
Bilious Cholic, or Gastritis;
Scarlet, Typhoid, or other Fevers;
Influenza, Coughs, or Colds;
Inflammation of the Stomach or Bowels;

RADWAY'S READY RELIEF

SHOULD BE TAKEN INTERNALLY.

One dose will stop the pain; its continued use will, in a few hours, cure the patient.

HOW IT CURES.

The secondary indication of RADWAY'S READY RELIEF is to cure the patient of the disease or malady that occasions the pain; this it accomplishes rapidly and radically. So swift is the patient transformed from pain, misery, weakness, and decrepitude, to the delightful enjoyment of health and strength, that patients frequently ascribe its talismanic power to the supernatural influence of enchantment.

RHEUMATISM, LUMBAGO, GOUT, NEURALGIA, TOOTHACHE, CROUP, INFLUENZA, SORE THROAT, QUINZY, DIPTHERIA, HOARSENESS, BRONCHITIS, STIFF JOINTS ENLARGED TENDONS, HEADACHE, (Sick or Nervous,) ASTHMA, or HARD BREATHING.

It is truly marvellous how quick RADWAY'S READY RELIEF cures the sufferers of these maladies. The poor, crippled, and pain-stricken Rheumatic has not to wait days before a change takes place, but in a few minutes derives ease and comfort.

LONDON TIMES.

Twenty Years of Sleepless Nights.

Wm. Sydney Myers, Esq., of Havana, Cuba, the correspondent of the London Times, suffered with Acute and Chronic Rheumatism for twenty-five years, and for twenty years he had not enjoyed one whole night's calm rest. He applied RADWAY'S READY RELIEF—it immediately gave him ease and secured him the first calm and undisturbed sleep during the twenty years. The continued use of the READY RELIEF cured him.

PREVENTION BETTER THAN CURE.

THERE IS NO OCCASION FOR SICKNESS.

When you first feel pain, then take a teaspoonful of the READY RELIEF, in water; or apply it to the parts where you feel the discomfort.

ALL MALIGNANT DISEASES

first give warning of their presence, and if met promptly before they become securely intrenched within the system, will be readily expelled.

SIGNS OF SICKNESS.

Headache, Pains in the Limbs—in the Stomach, Bowels, and Kidneys—Cold Chills, and Hot Flushes, Coated Tongue, Burning Skin, Nausea, Shivering, Dullness, Loss of Appetite, Restlessness, Giddiness, &c., &c., are premonitory symptoms of Malignant Diseases. One dose of the READY RELIEF is sufficient to break up and expel diseased action, and restore the patient to health.

IN THE ARMY.

Dysentery, Bilious Cholic, Flux, Yellow, Typhoid and Malarius Fever, Rheumatism, Small Pox, Diptheria, Letters from Medical Directors, Surgeons, and Military Officers endorse the importance of RADWAY'S READY RELIEF over all other medicinal remedies.

EIGHTH MAINE.

Eighth Maine regiment, Serg't C. P. Lord, writes that Radway's Ready Relief saved the regiment from death while quartered at Tybee Island, S. C., when working in the swamps, erecting fortifications. Every man seized with Typhoid and other Fevers, Fever and Ague, Diarrhœa, Dysentery, Rheumatism, was cured by the use of the Ready Relief.

CAUTION.

In all cases ask for Radway's Ready Relief. Take no other. See that the signature of Radway & Co. is on the outside label of each bottle. Every agent is supplied with a new and fresh stock. Price 25 cents per bottle. Sold by Druggists, Merchants and country storekeepers.

HOLLOWAY'S PILLS AND OINTMENT.—Influenza, Colds.—In diseases of the throat and chest, so prevalent in this country, nothing so speedily relieves or so certainly cures as these inestimable remedies. These disorders are too often neglected at the commencement; or are injudiciously treated, resulting in either case, in disastrous consequences. Whatever the condition of the patient, Holloway's medicines will restore, if recovery be possible; they will retard the alarming symptoms till the blood is purified and Nature consummates the cure, gradually restoring strength and vital nervous power. By persevering in the use of Holloway's preparations, tone is conferred on the stomach and frame generally; the fluids are regenerated, morbific matter is expelled, and a happy revolution occurs throughout the system.

HOLLOWAY'S OINTMENT.—Wounds, Scalds, Burns, and Irritating Sores.—The peculiarly mild, soothing, anti-inflammatory power exerted by this Ointment strongly recommends its use to all persons who have charge of children. Accidents will occur in the nursery in spite of the greatest caution and utmost vigilance. The scratch, the burn, or the scald, treated early with this Ointment, assumes no angry aspect, and never long tortues the little sufferer, whose very cry excites each bystander's compassion and pierces the parents heart. Every nurse should consider this invaluable Ointment an essential to a well appointed nursery. The Ointment is applicable to any sore, whatever its character. It conducts to health as sure as the compass points to the north.

HOLLOWAY'S OINTMENT AND PILLS—Palpitation, Shortness of Breath, Dropsy.—This last named disease is often preceded by irregular action of the heart, and difficult respiration which symptoms are always severe, and ever go from bad to worse, unless proper means of cure be resorted to. In Holloway's unrivalled Ointment and Pills the dropsical patient will ever find succour; the present relief derived from the use of these remedies is marvellously quick, and perseverance in the steady application of this noble Ointment invariably results in a lasting and satisfactory cure. The two medicines act with such energy on the circulation and absorbent system, that the dropsical fluid vanishes, and the sufferer finds all the oppressive symptoms daily decline, till natural health returns.

HOLLOWAY' OINTMENT AND PILLS.—Fistulas, Piles, Excoriations, and Strictures, are speedily relieved and ultimately removed by applying this Ointment after fomentation with warm water. Persons suffering from these scourges of the human frame should arrest their progress at once, for it is both insidious and rapid. Fistulas, if long allowed to go on unchecked, not only weaken the nervous system, but destroy life. The sooner these inestimable remedies are used the more certain is success; yet none should despair, hopeless cases have often yielded, and the sufferer has been saved a painful death. In excoriations, a few applicaions of this healing Ointment effect a cure, while the Pills, conjointly used, are especially beneficial in relaxing and removing strictures, whatever their situation or duration.

HOLLOWAY'S OINTMENT AND PILLS, a certain remedy for diseases of the skin—Ringworm, scurvy, scrofula, or king's evil, sore heads, and the most inveterate skin diseases to which the human race is subject, cannot be treated with a more safe and speedy remedy than Holloway's Ointment and Pills, which act so peculiarly on the constitution, and so purify the blood that those diseases are eradicated from the system, and a lasting cure is obtained. They are equally efficacious in the cure of tumours, burns, scalds, glandular swellings, ulcerous wounds, rheumatism, contracted and stiff joints. These medicines operate mildly and surely. The cure effected by them is not temporary or apparent only, but complete and permanent.

If afflicted with either of the above named diseases, "one to six" boxes of Dr. Radway's Pills will cure you. By taking a few doses of the common Drastic Pills—that gripe and pinch you when they operate—you may obtain temporary relief; but if you stop taking these imperfect pills for a week or a month, your old complaint returns. Now, this is not the method of cure indicated by Dr. Radway's Pills. They make a perfect cure, and the patient will not require any more medicine.

PILES, STRAINING AND TENESMUS,
PILES, STRAINING AND TENESMUS,

Are the results of inflammation or irritation of the mucous membrane of the bowels, induced by drastic pills—these imperfect pills, instead of being dissolved by the chile, are carried to the lower bowels, and induce a peristaltic movement or evacuation by their irritation—hence the straining, cramps, wrenching pains, piles and tenesmus, and the frequent false calls to the water closet, that patients undergo who take these imperfect pills.

If you would avoid these annoyances, whenever a purgative medicine is required, take a dose of

RADWAY'S REGULATING PILLS.

THEY WILL PURGE THOROUGHLY AND LEAVE THE BOWELS REGULAR.

Persons afflicted with Piles, may rely on a positive cure by their use.

HOLLOWAY'S OINTMENT AND PILLS.—The family medical chest that is furnished with these powerful remedies needs nothing more. Indigestion, general dibility, liver complaint, eruptions, sores, wounds, ulcers, tumours, &c., are infallibly cured by their use. They purify the blood and give tone and vigour to the whole system. The Ointment, when well rubbed into the parts affected, enters the flesh just as salt enters meat, and if the Pills be taken as an auxiliary, the cure is speedy, thorough, and permanent. These medicaments are composed of rare balsams, without the admixture of a grain of mercury or any injurious substance. They are peculiarly mild and gentle in their action, and are as safe as they are efficacious.

HOLLOWAY'S PILLS.—No family should be without these pills.—Their long-tried efficacy in removing indigestion, stimulating the bowels, and purifying the blood, have secured them imperishable praise throughout the globe. Whatever the disease, a few doses will relieve the more urgent symptoms and thereafter completely control all disordered action, rouse the torpid liver, empty the engorged spleen, cleanse the obstructed kidneys, assimilate the food, improve the blood, and thereby confer on the brain and every function healthful vigour, natural activity, and wholesome regularity. In cases of indigestion, dimness of sight, headache, mental and physical lassitude, these restorative Pills act as a charm. They expel rheumatism and gout, while they infallibly correct female complaints in young and old, delicate and robust.

HOLLOWAY'S PILLS AND OINTMENT—Stomach and Kidneys. Between these two organs there exists a close and intimate relation which is demonstrated by the wasting which occurs in all diseases afflicting the kidneys. The disordered stomach is often the first index of renal irregularity. Holloway's remedies used at that juncture would cut short many a serious and fatal attack. They act with wonderful efficacy on every organ of secretion, but especially do they regulate the stomach, liver and kidneys, in restoring their healthy functions, and casting out any obstructions or impurities. It is necessary for the ointment to be well rubbed into the small of the back twice daily, when it is absorbed, and greatly augments the purifying and salutary influence of the Pills.

HOLLOWAY'S OINTMENT AND PILLS—Acute Rheumatism. In all severe pains in the joints and muscles, after due fomentation with hot water, the soothing action of this Ointment is most remarkable; it seems at once to lessen inflammation, ease pain, reduce the swelling, restore the free circulation, and expel the disease. In these complaints, indeed, Holloway's Ointment and Pills are an infallible specific. The Ointment should be rubbed as near the part in pain as the patient can bear; it is absorbed and directly conveyed to the diseased textures, when, acting on nerves, vessels, and guiders, it will arrest disease and again establish healthy action. The aperient and purifying qualities of the Pills have the happiest effect in assisting the Ointment.

HOLLOWAY'S PILLS.—General debility, low spirits, and nervous irritation, are the consequences of dyspepsia or indigestion. The Pills soon give tone to the stomach, renovate the digestive powers, purify the blood, and give strength to the whole system. Sluggishness of the body and depression of the mind are succeeded by a cheerful activity of the physical and mental functions. Indigestion is the parent of so many evils, and is so common, so universal a complaint, that it is a great blessing that such a remedy as this invaluable medicine should have been discovered. No one need long suffer from indigestion with these Pills at hand.
